

Invitation

Materialise 3DP Academy

Unlock New Opportunities
with 3D Printing for Your Business

Wednesday 29th March 2017
9:30am - 4:00pm
AMP Technology Centre, Sheffield

Untapping the Potential of 3D Printing

Wednesday 29th March 2017
9:30am - 4:00pm
AMP Technology Centre, Sheffield

From prototypes to production tools, to low-volume manufacturing, Additive Manufacturing can unlock a wide range of benefits when you know how to use it to its full potential.

An exclusive one-day event, the 3DP Academy is a must for anyone looking to explore and learn more about the opportunities offered by Additive Manufacturing for their business.

The Materialise team will share their experiences in design, engineering and production using 3D Printing. Participants will have the opportunity to exchange ideas with the Materialise team and get hands-on with 3D Printing materials, samples and finished products.

Agenda

9:30 **Arrival and Registration**

10:00 **Welcome**

10:10 **3D Printing Technologies and Materials**

An introduction to 3D Printing technologies and materials with customer case studies to show the applications in practice

10:50 **When 3D Printing Becomes Relevant for Your Business**

Reasons to include 3D printing in your portfolio of production techniques, how to spot applications, and the business benefits it can offer.

11:20 **Break**

11:40 **Design for Additive Manufacturing**

3D Printing opens up new and interesting ways of creating products and solutions. The right approach towards design and engineering can highly impact a part's costs, functionality and performance. Find out about the opportunities 3D Printing offers when you design for AM.

12:20 **Lunch**

13:20 **Interactive Workshop: Finding the Right Applications**

A successfully printed part is always the result of a perfect interplay between the technology, the material and the design process. In this workshop we will look for relevant applications based on a number of key drivers.

15:00 **Break**

15:15 **Adopt Additive Manufacturing in Your Business Today**

How to put Additive Manufacturing on the agenda and make it a success. A practical guide to introducing 3D Printing into your business.

16:00 **Event close**

We are looking forward to seeing you there!

Time & Date:

Wednesday 29th March, 2017
9:30am - 4:00pm

Cost to Attend:

Free

Venue:

AMP Technology Centre
Brunel Way, Catcliffe
Sheffield, S60 5WG
